The Isle of Wight

Reachable by ferry only, the Isle of Wight has a small population of approximately 139,000 residents and dates back, to the 15th Century.

Exploring the Garden Isle

There are so many ways to explore the Garden Isle. Hop on a bus (try open top in the summer) and easily make your way from town to town, or why not get on a bike and make use of our network of cycle paths. As well as being the 'Garden Isle', the Isle of Wight is also known as 'Bicycle Island' and boasts a wide range of cycle tracks suitable for all levels of cyclists. from those looking for a gently meandering route. Travel through the quaint, picturesque villages and make a pit stop at one of our friendly local cafes for afternoon tea.

In Victorian times the Isle of Wight was one of the most popular places to visit for a holiday break.

Osborne House was built between 1845 and 1861 for Queen Victoria and Prince Albert as a summer home and rural retreat. The house and gardens are open to the public. A MUST to visit while on the island

The Isle of Wight

The most photographed groups of rocks in the world. This row of distinctive chalk stacks are known as the Needles and support the Needles lighthouse at the furthest point out to sea.

The rocks date back to more than 5000 years BC. The chalk unusually hard rock which unlike chalk as we know it to be, it is resistant to erosion.

Tour boats are available to get close to the rocks or you may take a chairlift to view from a height.

Originally, there were four rocks – you can see the gap very clearly, like a missing tooth. The name the Needles comes from the fourth rock, which was needle-shaped and known as 'Lot's Wife'.

The book of Genesis in the Bible records that Lot's Wife was turned into a pillar of salt as a punishment for looking back after being told not to when she was fleeing from the destruction of Sodom.

At 120ft (36.6m), this rock was the tallest of the four. Its spectacular collapse in a great storm in 1764 is said to have been felt in Portsmouth. Despite its demise and the relatively squat shapes of the surviving rocks, the name the Needles stuck.

The British National Trust bought the Needles Headland in 1975

The Isle of Wight

The shoreline around the Isle of Wight is extremely diverse with sandy beaches, high cliffs hosting many small fishing villages and towns.

If you are a hiker, a coastal path of approximately 70 miles, they say can be walked in 4 days.

Godshill Cottages and Church showing the thatched roofing – a roofing trade that's done by so few.
